Light equipment facility provides outstanding accessibility and one-stop service

Rexco Equipment's Bobcat of Cedar Rapids store offers customers an easy way to buy, rent, pick up parts or bring their machines in for service at the store located just off Blairs Ferry Road in Cedar Rapids.

"We have an ample driveway entrance along with a separate parking lot right off of Crane Lane for our Bobcat, Kubota and ExMark customers," said Doug Sebastian, Manager of the Bobcat of Cedar Rapids facility. "The parts counter is located right as you come in the door. We have sales, service and parts people who work exclusively with customers who use our light-equipment lines.

"That includes a full spectrum of Bobcat machinery," he added. "We carry rubber-tire skid steers, compact track loaders, versahandlers, aerial lifts and a wide range of attachments to make them more versatile and productive."

The Bobcat of Cedar Rapids location is a one-stop shop for light-equipment users' needs. The large facility houses a huge inventory of Bobcat, Kubota, ExMark and other manufacturers' parts. It also features a large shop area for servicing all machinery Bobcat of Cedar Rapids carries, as well as other brands.

"Our success starts with having quality products that improve users' productivity and efficiency and reduce their downtime," said Sebastian. "Then we back it up with excellent parts and service support. We'll also work on equipment that we don't sell. It's all part of an effort to make Bobcat of Cedar Rapids the name people think of when they need a full-service facility for their equipment needs."

A wealth of experience

Sebastian noted that the staff of nearly 10 offers customers many years of experience working with Bobcat and other light equipment.

"Our guys are among the best in the business because they have experience in all facets of the business from selling the right piece of equipment to match the customers' needs, to ensuring we have the right parts on hand at all times for quick repairs by the user or us," he said. "Our goal is for customers to say, 'Hey, that Bobcat dealer in Cedar Rapids takes care of you. When you go in there, there's always someone to help you out.' We want to be known as the place to get good customer service for parts, sales, service and rentals."

Doug Sebastian, Manager

Conveniently located, the Bobcat of Cedar Rapids store offers customers one-stop shopping for Bobcat, Kubota and ExMark products.
